Vice-President Ira L. Baldwin
Bacon Hall

Dear Dr. Baldwin:

Notices were recently posted here concerning Fulbright Act awards for study in Europe. I would appreciate any general information that you may be able to distribute for awards to Italy, France or the United Kingdom.

May I also enquire whether you have information concerning travel grants to encourage attendance at next summer's international congresses (Genetics and Microbiology, both in Italy). I have read somewhere that the National Science Foundation is contemplating such subsidies.

Yours respectfully,

Joshua Lederberg

I did get a Fulbright to
